Doorkeeper Polk Ousted.

WASHINGTON, April 4.—The house by a vote of 139 to 80 declared the office of doorkeeper vacant.

The Vote on Polk's Expulsion

A three days discussion of the momentous doorkeeper question was at last ended this afternoon by the adoption of resolutions ousting Col Polk by an unexpectedly large majority. The negative votes were all with one exception, cast by Democrats. A number of Republicans felt great sympathy for Polk, who has evidently been treated by the Democratic majority of the investigating committee as a scapegoat but in view of his lack of firmness to resist the pressure and his manifest business inefficiency they could not vote for his retention in office. They were also, of course, influenced to some extent by a willingness to be thus furnished with an effective topic for political campaigns next autumn. Quite a ... following the action the Republicans made an effort to ... [illegible] ... Democrat ... General Sher... office. The Democrats, however ... enough votes to carry ... will probably ... [illegible]

The Bourbons on their Ear

WASHINGTON April 4.—Southern Democrats are to-night indignant that northern Democrats voted against Polk. They say they will present a confederate brigadier and refuse to vote for anybody else for the position and unless he is accepted break up the caucus

Sherman on Resumption.

WASHINGTON April 4.—A conference between Secretary Sherman and the house committee on coinage, in regard to the preparations for the resumption, and the ability of the treasury to maintain resumption lasted over three hours to day. The secretary stoutly resisted all efforts to weaken his faith in the power of the treasury to carry out the resumption law and reasserted his convictions both of his ability to do so and of the good policy of the act.

New Dollars Moving Slowly.

WASHINGTON, April 4.—For several days the exchanges at the treasury of silver dollars of new coinage have not averaged beyond a hundred dollars a day exclusive of applications for banks. Only two shipments have thus far been made from the mint to the treasury aggregating $20 000. There are still $12,000 of this in the cash room vaults.

Against Polk

The house has refused—yeas 69 nays 135—to accept as a substitute for the report of the committee on civil service reform a resolution merely censuring Doorkeeper Polk

Sympathy for Polk

Despite the action of the house there is very general sympathy for Polk who it is admitted, is a victim of the average congressman in his scramble for the scraps in the doorkeeper's office

The Revenue and Income Bill.

CHICAGO April 4.—The *Journal's* Washington special says: Members of the ways and means committee say the revenue bill will probably be completed so as to be submitted early next week. The question of reimposition of the income tax will it is expected, be decided at the meeting to morrow. A member of the committee said to day he believed the proposition would be carried in the committee although Secretary Sherman is against it and wants a duty placed on tea and coffee instead. The bill has been framed with a view to raising about $50 000 000 revenue. Wood believes there will be no deficit in the revenues if his tariff bill becomes a law, but he will vote in favor of restoring the income tax which will be made to bear as heavily as possible upon large corporations

San Diego Harbor

The superintendent of the coast survey has received the complete report of the recent survey of San Diego harbor from which it appears that the bar has retained an extraordinary permanent character of form since the date of Admiral Alden's survey in 1856 and that the depth of water in the channel over the bar has become nine inches greater during an interval of 22 years between the surveys. The preliminary report heretofore mentioned in these dispatches showed that the depth of water in the harbor has also been maintained or increased during the same period

Prospects of a vote Slight

The prospects of a vote being taken in the senate to morrow on the Pacific railroad sinking fund bill seem very slight. The subject will probably go over to next week

Conkling on the Sinking Fund Bill.

Conkling to day manifested an unmistakable opposition to the judiciary committee's bill, and its chances of passage have been thereby materially diminished

Booth Sick.

Senator Booth was to day able to attend the meeting of his committee but returned to his apartments early in the afternoon. A day or two of comparative quiet will restore him to usual health

Army Bills

WASHINGTON, April 4.—The house committee on military affairs have agreed to report favorably Banning's army bill and Representative Briggs' bill fixing the pay of the army and Dibrell's bill proposing an increase of pay of certain officers

Vance's Friends to his Defense.

It is positively denied by intimate friends of ex Congressman Vance that he has eloped with the wife of a music teacher

Preparing for the Transit.

Rear Admiral Rodgers superintendent of the Naval Observatory, has made arrangements for observing the transit of Mercury on the 6th of May and the Western Union Telegraph Co will transmit the Washington time signal throughout the country from the 1st to the 10th of May for astronomers and others observing the transit

About the Sinking Fund Bill.

Matthews occupied nearly all the time of the senate to day in opposing the bill for the liquidation of the Pacific railroad indebtedness to the government or else the vote would have been reached. There is little doubt now that the vote will be taken to morrow though the opponents of the bill are striving for delay, in the hope of strengthening their side. Thurman is confident his bill will command a decided majority in just about the shape it came from the committee. He may offer an amendment proposing that the sinking fund shall be invested in first mortgage bonds of the Pacific railroads, but it is doubtful if it prevails. Owing to the high premium which these bonds maintain in the market it is probable a government bond at a lower rate of interest will be agreed upon. Blaine's amendment to make this bill a legislative finality will probably fail, as it would be as unjust to the roads as to the government if it should be found that the present bill needed modification after becoming a law

Committee Meetings

WASHINGTON, April 4.—A private meeting of the Republican national committee and the old congressional committee was held to night at the room of ... Chandler, secretary of the senate. The object of the meeting was to consult informally about the organization of the party for the fall campaign. It was decided to ask Republicans in congress to re organize the congressional committee and to make arrangements for an earnest fight to carry the next congress

WASHINGTON April 4

[illegible] ... San Francisco ... in favor of the act ... for the coinage of silver ... the sub treasury in that city to be redeemable in the city of New York the same as those issued by others ... of the United States referred to committee on finance

At the expiration of the morning hour ... was resumed of unfinished business—the Pacific Railroad funding bill—and Matthews replied to the argument against the railroad committee's bill

On motion of Windom the bill for the construction of a narrow gauge railroad from ... to the Black Hills was taken up and laid over till to morrow

Morrill offered a resolution providing for a committee ... the propriety of taking the tenth census. He said the arrangement had to be made during the present congress for taking the tenth census and as the next session was a short one, preliminary steps should now be taken ... was agreed to

Matthews said he had been pained to hear ... refer to the friends of these great and powerful corporations being present on the floor ... and in the galleries. Whatever grain of reality there may be in all this senators should be careful how such insinuations are made unless they have specific charges to present. He next referred to the remarks of Christiancy who said he had made what was not law appear most like law and that he had in citing authorities stopped at the point where it suited his views and omitted that which was against them. He had since carefully reviewed the citations and had no corrections to make. As to any arrangement that can be arrived at between the government and these companies he was indifferent whatever they should pay. He stood here to day impressed with the responsibility of what he said, and if the government had to lose all it had better do so than give its assent to this bill which in effect upset the decision of the supreme court which determines the relations between these parties

At the conclusion of his remarks Matthews said he would withdraw the bill of the railroad committee which he had offered as a substitute in order that there might be a direct vote on the judiciary committee's bill

A resolution was agreed to requesting the house to return the bill relative to Hot Springs which the senate passed March 31. The object was to strike out some objectionable features

A discussion sprang up between Blaine, Whyte, Thurman, Hill and Kernan regarding the right to alter and amend legislation regarding the Pacific railroads

Thurman held that such power existed in congress.

Hill claimed that no legislative power could compel a railroad to pay its debts. Court proceedings alone could do that. Adjourned

House.

Butler introduced a bill to supply a convenient currency with which minor business transactions of the people may be done. Referred. It provides for the issuing of 25 and 50 cents in fractional currency and that any person paying into the treasury legal tender notes or coin should receive such amount of fractional currency as he may desire and directs the secretary of the treasury to pay out one sixth of all payments made from the treasury in redemption of national bank notes by legal tender notes of the denominations of $1 $2 $3 and $5

Consideration was resumed of the Polk case and Cook spoke in favor of retaining the doorkeeper

Harrison demanded the previous question not seconded

Eden offered a substitute for the resolution of the majority censuring Polk for employing persons in excess of the number authorized by law directing him to revise the soldiers roll and remove therefrom all persons not disabled soldiers, and recommitting the matter to the committee on civil service reform with instructions to ascertain what change may be necessary or a more economical administration of the business of the doorkeeper's department.

Baker of Indiana was in favor of the majority resolution

Hale said the case of the doorkeeper sank into insignificance compared with the radical incompetency of the Democratic party to administer any branch of the government. Falstaff as a soldier Bottom as a lover Dundreary as a philosopher Mulberry Sellers as capitalist cut no such figures as the Democratic party cut masquerading before the country as civil service reformers and as being capable of administering any branch of the government no matter how small

Baker of New York said he would like to offer an amendment directing the doorkeeper in his future appointments to disregard the solicitations of Democrats

The resolution offered by Eden as a substitute for the report of the committee was rejected—yeas 95 nays 13.

The question recurred on the resolutions reported by the committee as follows

Resolved That the position of doorkeeper of the house of representatives be and is hereby declared vacant and further

Resolved That until the appointment of a new doorkeeper the duties be and are hereby devolved upon the sergeant at arms

Conger demanded a division

The vote was therefore taken on the first resolution and it was adopted—yeas 139 nays 80

The next vote was on the second resolution devolving temporarily the duties of doorkeeper on the sergeant at arms adopted—ayes 152 nays 11a

Immediately on announcement of the vote Hale rose to move the house proceed to the election of a doorkeeper

Eden moved the house adjourn agreed to—yeas 121 nays 118—and the house accordingly adjourned

Pending the announcement the speaker appointed Durham and Blount of Indiana as conference committee on the bill making an appropriation for the employment of temporary clerks

Announcement was made of the Democratic caucus to take place to morrow evening

Insurgents Surrender

HAVANA April 3.—It is officially reported that 2 600 insurgents surrendered in the jurisdiction of Manzanillo during March. Of these 1 250 were men. The arms of all kinds given up amounted to 2 030 pieces

Status of Indian Moses

[From the Lewiston Teller.]

We are credibly informed that Chief Moses on the question of going upon a reservation is defiant and says that neither himself nor his people will go upon a reservation that he would prefer to go to a prison, that he and his people can support themselves where they are by hunting fishing and raising what grain and vegetables they need that they want to be let alone, that they have no objections to the whites settling around them and among them upon such lands as they do not use and that they will be friends with them. But if the attempt is made to put them upon a reservation they will fight to the bitter end. Moses is represented to possess about $15 000 in ready money, and many horses and some other property of value. That he and his people are well armed with good guns and considerable ammunition having been accumulating both guns and ammunition from traders north of the British line and some from traders this side during the winter. Moses himself being able to both read and write has gathered full intelligence of the career of Joseph and his present treatment by the government and through Moses all the other Indians are fully apprised of what is made public through the newspaper press and so far as we can gather from those who are conversant with other tribes including many of the Nez Perces now upon the reservation they are watching with deep interest the condition and purposes of Moses and if he goes upon the war path they will become his allies in which event much blood will be shed and much property destroyed before quiet will again be restored. If congress would to day abolish the reservation system and authorize Indian homesteading lands upon the reservations in severalty it would do more than all else to insure a lasting peace upon our frontier

THE EASTERN QUESTION.

Doings of Peace Men in England

LONDON April 4.—Despite the speeches of Lord Granville and Hartington to the deputation of the National Liberal Federation yesterday it is ... believed that the opposition will take no ... stand against the government's policy. Gladstone and his followers ... endeavored to force the party leaders into active antagonism and independent members may introduce resolutions disapproving the calling out of reserves but there will be strong counter influences which party leaders are not likely to disregard. A movement has already received the adhesion of 60 or 70 liberal members having for its object to prevent the party from trammeling the government's foreign policy

The *Times* strongly condemns the objects of the deputation and sharply criticises the supporters of Granville and Hartington

Gladstone Questions the Government

In the house of commons this afternoon Gladstone asked firstly if it was the intention of the government in the recent communication regarding the congress to reserve the loss of self liberty to withdraw from the congress upon the proposal to discuss any matter, the discussion of which it did not think admissible, and secondly why England refused a preliminary conference

Northcote replied, firstly all that England wanted at the congress was the discussion of every article of the treaty and secondly that Lord Derby's dispatch gave the reason for declining preliminary conference

Gladstone thereupon gave notice that he would raise a discussion to morrow because of Northcote's unsatisfactory reply

The English Budget.

The chancellor of the exchequer presented the budget in the house of commons to lay. Ordinary expenditure is £81 020 000 and the revenue £79 140 000

Explaining the Budget

LONDON April 4.—Northcote in explaining the budget in the house of commons to night stated that the revenue for 1877 and 1878 had been £79 763,298 and expenditure £78 903,495. The surplus for the last year was consequently £858 803. Of the £6 000 000 vote £3 500 000 had been actually expended and some further liabilities incurred. The surplus was thus converted into a deficit of £2 640 000. To meet this deficit and further liabilities the government had applied £750 000 of the surplus revenue and issued exchequer bonds for £2 750 000, running for a year only. They thus commenced the year with a temporary debt of £2 750 000. The estimated deficit for 1878 79 was £1 560 000. This does not include any provision for the redemption of treasury bonds or for further liabilities £1 00 000 of which had been incurred for the army and £200 000 for the navy which would have to be met by a supplementary estimate. They further estimated the expense of calling out the reserves at £100 000, which allowed for their being under arms three months. They estimated the expense which would have to be incurred for the new dockyards and extra labor at £400 000 thus raising the supplementary estimates to over £1,000 000 or £1 500 000. All of these expenses combined showed a total deficit of £5 300 000 or £5 800 000. They proposed to meet during the present year the deficit on ordinary expenditure the supplementary estimates and some portion of the outstanding treasury bonds. For this purpose they proposed to increase the income tax 2 pence on the pound which they estimated would produce £3 000,000, to increase the tobacco duty 4 pence per pound which they estimated would produce £750 000 and to increase the dog tax in a manner estimated to produce £100 000. The chancellor trusted the house and country would receive this statement in the same manner in which the late calls of the government had been responded to

The Rumors of Changes in the Roumanian Cabinet

Unintelligible rumors recently current of a cabinet crisis in Bucharest are explained by a letter from that city dated April 1st telegraphed here from Vienna. It seems while the people and legislature are unanimously opposed to Russia there is a strong suspicion that Prince Charles and his cabinet are prepared to consent to a cession of Bessarabia and had really agreed with Gen Ignatieff in this sense but found the opposition so strong they feared a revolution if they proceeded with the scheme. The pro Russian party continues the latter are of course anti Austrian and circumstances must determine whether the cabinet will carry out the will of the nation or throw themselves into the arms of Russia

Additional Eastern Correspondence

LONDON April 4.—Additional Eastern correspondence is published as follows

Lord Odo Russell British ambassador at Berlin telegraphs March 28th that Prince Bismarck has requested him to state that Germany would only participate in the congress with it England and that ... Bismarck ... proceeds for the revision of European rights could be held when England one of the chief contractors was absent

M Cogalniceanu Roumanian minister of foreign affairs writes to the Roumanian agent at Vienna March 16th that Prince Gortschakoff had declared to Prince Ghika Roumanian agent at St Petersburg that notwithstanding all the remonstrances Russia's decision in regard to Bessarabia was irrevocable. Russia would not bring the question before the congress nor consent to another power bringing it. It would leave all else to the emperor. If she could not make us give in she would take Bessarabia by force and armed resistance would be fatal to Roumania

He declared that he concluded

Notwithstanding these threats we persist in our refusal to yield

The Roumanian agent at Vienna communicated to Sir H G Elliott April 1 a dispatch from the agent at St Petersburg recounting a conversation with Prince Gortschakoff who said

Is it true that your government intends to protest against the article of the treaty which provides for communication of the army in Bulgaria with Russia through Roumelia. The emperor has ordered me to inform you that if you have such intention he will order the occupation of Roumania and the disarmament of the Roumanian army

The agent replied that Russia should have treated with Roumania not with Turkey concerning the passage of the army

Prince Gortschakoff rejoined We did not choose to have anything more to do with you on account of your conduct. It is important that you should know that we insist upon free passage through your country, and that you should inform your government of the emperor's declaration. Your government must plainly state their decision

A Quarrel about Buying Silver

SAN FRANCISCO April 4.—It would appear the war which has been threatened between Secretary Sherman and Flood & O'Brien regarding purchases of silver bullion, had already broken out. The government has just purchased silver here to the amount of sixty thousand ounces from Mr Harris agent of the London and Shanghai bank, at a price equivalent to 54½ pence in London although London quotations for the last three days have been 54¼. An interesting feature of this transaction is the fact reported that Harris purchased the silver to fill his contract from the Selby smelting works under control of Flood & O'Brien. The government has also purchased from the Grand Prize Mining Co., of which the Anglo California bank is agent here, one hundred and twenty thousand ounces at the same price as paid to Harris. Flood & O'Brien have been holding out for the market price in London plus expense of transportation here, while Sherman has contended that they should sell at London price flat. In the above purchases Sherman seems to have come partly round to Flood & O'Brien's views in dealing with the other parties. It is also reported as an instance of Sherman's intention to force fighting that a few days ago the government by telegraph offered the Bank of California 54¼ pence for silver while on the same day it offered the Nevada bank only 54¼

Church Reception.

A reception was given at St. Mary's college this afternoon to Dr Conroy, apostolic delegate of the Holy See who is here on business connected with affairs of the church. Among the dignitaries present were Archbishop Alemany, of this city and Bishop O'Connor, of Marysville. A banquet with usual ceremonies followed the reception. Dr Conroy in his post prandial speech paid a high tribute to California saying Venice and Genoa in their palmiest days fell short of the promise of our state

A Hint at Bribery.

Rumor hath it that a number of legislators were seen filing into and out of the office of a certain prominent lobbyist on Montgomery street each one as he emerged critically inspecting figures on a certain document ornamented with sundry vignettes scroll work, etc

The Bogus Stock Operators.

George N Crawford the enterprising young operator who proposed to flood the stock market with bogus Ophir certificates, waived an examination this afternoon on a charge of forgery against him and was held to answer with bail at $6 000

Swindling on Street Work

SAN FRANCISCO April 4.—A few days ago it was discovered that the contract of I F Ohms for grading Oak street for a couple of blocks had been raised from 8 to 28 cents per cubic yard. Ohms by his attorney, stated it was a clerical error and the authorization to pay the amount was withdrawn and a new demand made in accordance with the original contract. To day it comes to light that another of Ohms contracts for grading ten blocks in Buena Vista Park has been raised from 9 to 29 cents per yard involving a swindle of $30 000. The contract was recorded September 26th for nine cents and the copy in the recorder's office bears the same consideration but the original contract in the office of the superintendent of streets and entries on the superintendent's books show 29 cents. The swindle was discovered in time to prevent its consummation no assessments having yet been made on the property. Ohms will probably find it difficult to convince the authorities that this is also a clerical error and it also seems practically impossible that such changes could be effected without collusion on the part of some one connected with the office of the superintendent of streets

A Strong Reminder

SAN FRANCISCO April 4.—A figure suspended to a pole on the corner of Grove and Laguna streets attracted some attention yesterday morning. A member of the Kearney club said it was an effigy of their dictator who had exhibited his noose saying that was his platform which should be administered to all persons who betrayed the party and as dictator had himself gone back on the hemp platform. It was deemed advisable to remand him of his recreancy by suspension

Death of Judge Sexton.

OROVILLE April 4.—Warren T Sexton judge of the 2d judicial district died at his residence in Oroville at 4 P M to day. He has been sick for several months though he held court until the 15th of last month. He was a pioneer in this county coming here in 1849. With the exception of one term he has been district judge of this district since 1856. He was a native of New Jersey graduated from Ann Arbor University Michigan and was about 54 years of age. He leaves a wife and two children

VIRGINIA CITY April 3.—The report that the south end of the 1,700 foot level of the Sierra Nevada is in ore is denied by the superintendent. The west side of the winze of the 1 900 foot level of the Ophir is in fine ore. Assays are rumored as high as $200 but this is not official, the ore sooner than expected indicating that the ledge is widening. Bullion shipment from Con Va $168 747

The people of Chicago are sanguine that they at length see a way out of the bankruptcy that has overtaken their city. The *Inter-Ocean* says that there is in Chicago in round numbers, 2,300 saloons. The saloon men estimate the average number of drinks sold by each saloon at something over 150 per day a total for each day in the year of 427,000 drinks. Suppose a tax of one cent per drink was fixed by the city government, the revenue from this source for one year would be over $1,500 000, or more than ten times as much as is now received from the license system."

FRIDAY MORNING APRIL 5 1878

THE YAMHILL RAILROAD

With great satisfaction we are able to announce the speedy construction of the Dayton and Sheridan railroad But little public notice has been made of this enterprise for some time but the management have been hard at work, and we now congratulate the people of Yamhill and Polk that the matter has been placed beyond question And in fact it is an undertaking whose benefits will reach beyond those counties and we may therefore call it in a larger sense a state enterprise. It is hoped that it will prepare the way for similar enterprises in other localities Several, indeed are already projected and the success of this one may show their managers how to reach like results

Articles of incorporation for the Dayton and Grand Ronde railway company were filed on the 10th November last Active canvassing among the farmers for subscriptions of stock began about December 1st That success has already been assured speaks well for those having the matter in charge In a large degree this success is due to the well known ability and energy of Hon J Gaston, who was induced to take hold of the enterprise He showed the people how it could be done and, convinced of their ability to do it and of the great utility of the road to their section of country, they responded with liberality But it has required much labor to work it up and much sagacity to put it in right shape, and the credit for all this is largely due to Mr Gaston When he undertook it some months ago THE OREGONIAN said it expected a railroad as the result. Time proves that it was not mistaken.

The iron for the road is now being rolled at the Pacific Rolling Mills in San Francisco and, with fixtures for the track, will soon be ready. Last month an order for construction of locomotives and cars was accepted by the National Locomotive Works at Connellsville Pa., and work on the order is now under way. Engineers are in the field locating the line of the road contracts have been let for sixty thousand ties, and men are getting them out Grading will begin in about ten days or two weeks and track laying early in June. The road will be finished and put in operation from Dayton to Sheridan by the first of September in time to move the next crop of wheat All this is most encouraging There is not the slightest doubt that the road when completed will prove a good investment to the capitalists who are aiding it as it will furnish transportation for one of the richest valleys to be found anywhere Roads of this class, ample for all business and yet cheaply constructed, are destined to solve the problem of transportation for very many communities Already they are needed at a dozen points in Oregon The success of the Yamhill road shows how it may be done

WHY ANDERSON WAS RELEASED

Perhaps a statement of the grounds on which Anderson of the Louisiana returning board was released will be read with attention by those who have had interest enough in the event to lament it loudly as some Oregon journals have done. The supreme court brushed away all minor and irrelevant pleas, such as the exception taken to the manner of drawing the jury and the objection that it was not the practice to prosecute upon an information without a preliminary examination. On these points and others it was held that there had been no violation of the spirit of the law. But relative to the offense itself, as charged against the defendant, it was observed by the court that the document which was presented as evidence that forgery had been committed was not an "original return" as required by the statute, but a "consolidated statement" certified by the register of the polls. The court attached little or no value to this paper, for nowhere in the law of the state is a consolidated return required as a declaration of the result. Alteration of such a paper could not be regarded as forgery, it was no violation of law and could in no way affect the result of an election. It was observed by the court that if every consolidated return were changed, and the returning board complied with the law and made their statements from commissioners returns no injury could result. On the ground, therefore, that no paper had been altered that was calculated to change the result, the release of Anderson was ordered On the statement made by the court it is not possible to see how there could have been any other result. The plain fact is that in the matter no crime had been committed.

THE GREENBACK CONVENTION

Really the disinterested observer can't see any special reason for the existence of the Greenback party as a body separate from Democracy; for it would be hard to name any financial fallacy which the Democratic party of Oregon, under its present leadership, has not heretofore endorsed, or is not ready to endorse now. In all their leading purposes and methods the two organizations are substantially the same But as to whether they should unite or not, that is a matter of their own and does not concern us further than the moderate curiosity we may feel in any of the ordinary affairs of our fellow men This is a somewhat formidable bolt from the Democratic party The new organization does indeed contain recruits from the Republican ranks, but the number is not large The party is essentially of Democratic origin Its strength is an unknown quantity but is considerable enough to excite some alarm among the Democratic leaders and to produce corresponding satisfaction among the Republicans Great effort has been made to coax the members back to their former party affiliations but so far without much success and now the question is whether since the mountain would not come to Mahomet, shall Mahomet go to the mountain? Will the Democratic convention, which is to meet at Portland next week take up the candidates on the Greenback ticket, or if not all of them, the leading ones? It would be rather humiliating to do so but this might be considered better than the certainty of defeat. The object of the greenbackers in putting their convention ahead of the Democratic was to force acceptance of their candidates by the latter These be rather hard conditions that the time lays upon the Democratic convention We shall see how they will be met.

Formerly American trade with foreign nations was mainly carried on by American seamen sailing in American ships. In 1820 ninety two per cent of the tonnage employed belonged in the country Last year American vessels carried 310 660 281 tons of freight arriving from and departing for foreign ports while foreign vessels carried 859 920,536 tons In other words, about twenty seven per cent of our business was done by our own ships and seventy three per cent. by the ships of foreign owners. The fact is not a creditable one to our people and is mainly the result of an injudicious system of taxation and bad navigation laws But knowledge is increasing and the useful lesson that trade is best promoted by affording it the greatest possible freedom is being slowly learned

The house of representatives has popped its doorkeeper out of office because he hadn't pluck enough to resist the importunity of members who pressed him to appoint their friends to office They forced a great number of supernumeraries on him and it created such a scandal that they had to remove him Now the question is can they find a man who has virtue enough to resist their lust for places for their friends? They shoved upon Doorkeeper Polk who yielded because he wanted to please members and serve his party about sixty more appointments than the law allows We think this is the party which has been urging the necessity of civil service reform

It is shrewdly suspected that Hayes is hedging At Washington it is whispered that the course which he is pursuing which has given so great offense to members of his own party is deliberately chosen by him with a view to securing himself in his seat after both branches of congress shall have become Democratic This it is said he expects to effect by a conciliatory course that shall disarm Democratic hostility especially from the south It is a policy for his own peace and safety But it enrages stalwart Republicans and they freely charge that Hayes is taking care of himself at the expense of his party

The Pennsylvania Railroad Company is carrying debts which foot up the enormous total of $150 516,293 11 The main line from Philadelphia to Pittsburg has a traffic not exceeded by that of any road in the world Its profits, of course are great But in the days of inflated values and unnatural activity in business the company assumed liabilities of other roads extending west and south It reached too far and aimed at too much and in consequence it finds its resources most heavily taxed For a single corporation the magnitude of the debt is astounding

No judicious observer supposes that Oregon will re-elect Mr Mitchell to the senate though his personal followers are already showing an active energy in that behalf But should he be re elected of which there is not one chance in a thousand, he could not for another term be in a position where he could obstruct the wishes and efforts of the northwest in regard to a railway, for the Democrats will have the senate after next March, and a member of that party will be chairman of the committee on railroads

The wheat and chess controversy largely taxes our columns Already we have printed about as many communications on the subject as we gave some time ago on the doctrine of endless punishment And we begin to fear that demonstration is about as impossible in one controversy as in the other

Dr McDowell of Salem, contesting for the seat of Mr Williams in the house of representatives, should have contested as a regular Democrat Had he taken this course the house might have "elected" him At all events it has not failed in any case yet

The *Astorian* declares that Wasco wants no railroad unless provision be made to "prorate" This little difficulty ought not to be fatal Surely terms of some kind can be arranged between Mason and Chapman

The Democracy has had Enough Crow

[From the Memphis Avalanche]

The Chicago *Tribune* says Mr Tilden is fattening a crow for Democrats to dine on in 1880 The *Tribune* must not assume that the Democrats are fond of that savory dish Tilden made them eat crow in 1876 but they don't hanker after it enough to repeat the dose Tilden will eat his own crow in 1880

CITY.

SENTENCED TO LABOR.—Over a week ago one Newland was found lying on the street in a state of helpless intoxication and taken to the station. On the following day he was fined $5 by the court, and being impecunious, was committed for 7 days When ordered to go to work on the streets his spirit rebelled, and as a natural consequence he took a dark cell and the light but wholesome diet of water and bread for his term. Wednesday, Newland was discharged, having served out his time. Shortly after being discharged he was found gloriously drunk and taking a quiet little snooze on the sidewalk He was taken to the station and yesterday sentenced to pay a fine of $5, and not being pecuniarily able to meet the responsibility, was committed 7 days again. Newland seemed quite indignant and told Capt Allen that he did not propose to work on the streets for anybody and he would submit to such an indignity. He swore that he would go into the dark cell again. Capt Allen told him soothingly that he proposed to give such a proud and haughty citizen—such as Newland claimed to be—a chance to do just that very thing and Newland goes for another week to the dark cell.

[illegible] MR. TUTTLE.—A letter was received here last evening from Penawawa up [illegible] river, containing the sad intelligence of the death by suicide of Mr C H Tuttle, a young man well know in Portland. Mr Tuttle has lived several years in this city and was highly respected. He clerked for a long time in the dry goods establishment of Clarke & Henderson, and was also connected with one of the sewing machine agencies here. His health has been poor for some time and some months ago he left Portland and went to Penawawa as clerk in a store He was [illegible] employed at the time of the rash and [illegible] deed. He committed suicide last Sat[illegible] by shooting himself. On the day following the remains of the unhappy young man were buried. No particulars concerning the cause which could be obtained, nor was any cause assigned for the deed The letter was addressed to Messrs. Clarke & Henderson by the writer made inquiries in regard to the friends of the deceased. We understand that the parents of the unfortunate young man reside in Powell's valley. Deceased was a member of Willamette Engine Co No 1 and was about 26 years of age and unmarried.

[illegible] DEPRAVITY.—How often have we heard the expression "He is too mean for [illegible] a fellow who gets too mean to live in this mundane sphere, must be [illegible] indeed; but we do believe there [illegible] just such an individual [illegible] three or four of the large [illegible] which have stood so long on the [illegible] street near Fourth were [illegible] done by the owner of the [illegible] property, for the reason that the [illegible] either dead, or in a dying condition. [illegible] of young and thrifty Lom[illegible] have been set out in the place [illegible]. Some miserable wretch [illegible] shame or remorse has cut a [illegible] tender bark from these beau[illegible] trees. The trunks have not been [illegible] but enough bark has been [illegible] to kill the trees. What ought [illegible] done with the perpetrator of such a [illegible] malicious piece of mischief?

[illegible]—Mr A. W Hilde[illegible] agent for the O. & C. R. R. at Aurora, [illegible] the following note, bearing date of [illegible] Bernard the convict that [illegible] from the penitentiary yester[illegible] appearance here this morning [illegible] o'clock, as I went to the freight [illegible] freight, I discovered that a [illegible] had been broken open and four [illegible]. I at once suspected [illegible] he was seen there, nobody [illegible] was. I at once pursued [illegible] him, but a short distance from [illegible] where he had partaken of [illegible] on close examination dis[illegible] wore a convict hat and in all [illegible] the description left here by [illegible] morning. I arrested him and [illegible] to Salem for an officer to [illegible] whom I expect on the [illegible]. He has just now con[illegible] actually the lad."

[illegible]—The 25th anniversary of the organization of Samaritan Lodge, I O O F will be celebrated at New Market [illegible] Monday afternoon by appro[illegible]. In the evening a sociable [illegible] lodge room in Odd Fel[illegible] grand ball at Turn [illegible] arrangement is being [illegible] under whose man[illegible] is to be given, and it is safe [illegible] successful and enjoyable [illegible] experienced. Invitations have [illegible] the various sister lodges [illegible] and as half fare rates [illegible] over the several railroad [illegible] there will no doubt be a [illegible] from abroad.

The foregoing do not include the receipts and disbursements of District No [illegible] Multnomah and Clackamas joint District No [illegible] The reports from these two districts are so imperfect that their financial condition cannot be ascertained

REMARKS—In addition to the number of school houses built during the year substantial improvements have been made to the school buildings in District No 1 costing in the aggregate over eleven thousand dollars

STATISTICS

It gives me much pleasure in presenting this my second annual report of the public schools of Multnomah county to state that the schools of the county have made commendable improvement during the year

There are at present 5,595 children in the county between four and twenty years of age—597 more than reported last year There have been enrolled in the public schools during the year 3,863 pupils or a little over 69 per cent of the whole number Last year the enrollment as compared with the whole number then of proper school age was a little less than 68 per cent while in 1875 it was less than 50 per cent—*an increase of nearly twenty per cent in four years* There are now in the county only 864 more children of school age than for the year ending March 1875 yet there are now 1 521 more pupils enrolled than at that time the increase of the number enrolled exceeding the increase in the whole number in the county by 657 And the average attendance has risen from 1 670 in 1875 to 2 488 for the year just closed an increase of 818

The number not attending any school has decreased 17 2 per cent in four years

These facts will more fully appear from the following summary of comparative statistics These figures include a period of four years from March 1874 to March 1878

Comparative Statistics.

GENERAL	Year ending March 1875	1876	1877	1878	Increase in 4 years
Whole No Children of school age	4,731	4 [illegible]	4998	5595	864
Whole No enrolled in public schools	2312	2,76[illegible]	3,016	3863	15[illegible] 1
Average daily attendance	1670	1746	2018	2488	819
Per cent enrolled in public schools	49	[illegible]	67 [illegible]	69	1[illegible] 8
Per cent average attendance	3[illegible]	[illegible]	40 [illegible]	44 [illegible]	[illegible]
No not attending any school	1763	1 [illegible]	10[illegible]	1144	*decrease* 619
Per cent not attending any school	37 2	[illegible]	21 [illegible]	20 4	*decrease* 16 8

The foregoing statistics furnish indisputable evidence of the rapid growth and present popularity of the public schools

LEGISLATION

The school law of Oregon is very imperfect It should be amended And as the legislative assembly will meet in September next it may not be improper for me at this time to point out a few of its many defects The law now provides for the holding of an annual meeting on the first Monday of April At this meeting a clerk is elected for a term of one year To this meeting the out going clerk makes his annual report and as soon as his successor qualifies all district money books and papers are turned over to him The clerk elected at such meeting on the first Monday of March following—when he has been in office but *eleven months*—is required to make a yearly report to the county superintendent It is necessary in this report to show the condition of the schools both financially and otherwise for a year from the first Monday of March *prior* to his election to the first Monday of March *thereafter* It is necessary for him to account not only for the monies &c that may have come into his *own* hands as clerk but he is required also to show the receipts disbursements, &c of his predecessor for a period of one month To obviate this difficulty and hold each clerk responsible for his own official conduct the law should be so changed as to require the clerk to make a report *first* to his district at the annual meeting and *after* such report has been criticised and corrected if needs be by the district a copy thereof should be sent to the superintendent A large proportion of the errors found in the reports of clerks can be traced to this defect in the law

MAY APPORTIONMENT

The apportionment of the school fund in the county treasury should not be made on the third Monday of March but from two to four weeks later Usually on the third Monday of March only about [illegible] of the taxes have been collected whereas if the apportionment were made a month later all the taxes would have been collected [illegible] schools would have the benefit of the use of the money for the next six months or a year instead of having it locked up in the county vaults or deposited in some bank for that length of time

[illegible]

The law should [illegible] for a system of graded schools [illegible] [illegible] course [illegible] the use of the school [illegible] and regulations for the [illegible] as they may think necessary [illegible] law indispensable to the rapid advancement of education Unless some such law is passed [illegible] will make but slow progress Nor is it necessary for me to offer arguments in support of so plain a proposition The reasons are obvious and are well understood by all who have given the subject due consideration It is no longer a matter of theory or argument Thousands of graded schools are in successful operation in other parts of the country and their superiority has been fully demonstrated by *actual experience* It is generally, perhaps I should say universally conceded by educators that children make much more rapid advancement in such schools than in the [illegible] ungraded But we need not go away from home for proof [illegible] present prosperous condition of the schools of the [illegible]

[illegible]

A[illegible] compared with what they were a few years ago [illegible] a living example of the superiority of graded schools What efforts were made several years ago to classify and grade them [illegible] there was but little system Since the organization of that year [illegible] I think I am safe in saying the schools have advanced fully fifty per cent in efficiency of instruction and in the whole atmosphere of discipline method and scholarship However as early as 1870 1 and 2 Rev G H Atkinson then county superintendent labored earnestly in behalf of these schools and in fact *then* laid the foundation upon which the present system has grown [illegible] much credit cannot be given to him and his immediate successor Rev T L Eliot for their efforts in evolving, from chaos the school system of Portland But for my purpose at this time it matters not who were instrumental in founding our schools upon a proper basis That is a matter of history Besides those mentioned many others have aided materially but to whomsoever the credit belongs the fact as above indicated still remains that since the graded system was introduced the schools have been growing in public favor and usefulness and in my judgment have already reached a degree of perfection not possible to attain under the old system or rather want of system, of mixed or ungraded schools But graded schools are not necessarily confined to cities and large towns Such schools should be organized in smaller towns and densely populated rural districts—wherever an hundred or more children can be collected together Of course in the latter the classification and grading can not be so complete Nevertheless the school should be divided into departments all the same and be properly classified

EAST PORTLAND

While the schools of Portland are deservedly popular those of East Portland though just across the river are either unknown or reputed to be very poor I am pleased however to say that this blot upon East Portland is rapidly disappearing Her people are becoming alive to their true interest in this matter and are laboring diligently to build up a system of schools in their little city second to none in the state And they will succeed Within less than a year they have built a good two story school house costing something over $7 000 It is located upon a beautiful site at the head of I street It can be seen from almost any point in either Portland or East Portland and is the most conspicuous building in the place and attracts general attention The grounds are large containing over two blocks and when properly improved and ornamented will probably be the finest in the county A portion of the building was completed last October a corps of teachers employed and the work of grading the schools was at once commenced

New rules and regulations were adopted by the board quite similar to those of Portland Since the reorganization the schools have advanced with no little degree of rapidity and will continue to improve from year to year Indeed the growth in the last few months in efficiency and scholarship has been almost marvelous

I never knew a school to make more rapid progress At the present rate of advancement but few years at most will pass before the schools of East Portland will be equal to the best Sufficient progress has already been made that we can confidently point to this school as another living example of the superiority of the graded school We hope to have a number of graded schools with three or more departments in this county within a brief period

District No 31 has commenced and partly completed a good two story school building during the year As soon as the house is fully completed the school will be divided into at least two departments and as this district is rapidly increasing in population other departments will soon follow

District No 5 (Mount Tabor) has already two departments and it is proposed soon—probably during the present year—to put up another building and add another department

One thing that retards the grading of our country schools very much is the smallness of the districts A law therefore providing for a system of graded schools should authorize the union of two or more districts for such purposes particularly for the support and maintenance of the advanced grades

There are other amendments that should be made in the law but it seems to me that those above mentioned are the most important Yours respectfully

J J BROWNE,
Superintendent of Multnomah County
Portland April 1 1878

[illegible] ANNOUNCEMENT.

SPRING GOODS!

IN ADDRESSING THE PUBLIC ON THIS OCCASION we do so with more confidence than at any time since our advent into business. Our career in business has been singularly successful having attained a degree of enviable notoriety for straightforward dealing selling goods at a slight margin on importers prices.

Our STOCK for the Spring Trade is one of the best selected and the most comprehensive ever before offered to the people of Oregon—bought on the most advantageous terms and embracing every line in the trade

In disposing of this immense Stock our conduct shall be guided by the same golden rule as heretofore—**Honest dealing and the Smallest Living Profits.**

Our patrons embrace a large number of the Northwestern population and in sending out our

SPRING GREETING

we hope to see or hear from all our old friends and as many new ones as wish to avail themselves of this opportunity of purchasing goods cheaper than ever before offered in the Metropolis of the Northwest

Our facilities this year have been peculiarly favorable for purchasing having through our friends of the Bay City had the chance of picking up special lines suitable for this market at prices for which manufacturers could not begin to produce them This in a great measure is caused by the almost general stagnation of business in the leading markets of the United States, and more directly affecting the Pacific States from the hard times they have had and are having in San Francisco The consequence is the merchants there must unload their heavy stocks and in many cases at a great sacrifice

Fully realizing the situation our MR KERRON launched out and purchased an

IMMENSE STOCK!

More than in ordinary times he would have been justified in buying but the low prices he obtained them at will enable us to spread them over this State and the Territories at such a reduction on old time prices as will convince the most skeptical that we mean business, and business we

Must and Will Do!

It would be useless attempting to give a List of Prices Space does not warrant it. But we shall forward samples to any of our country friends who send for them

The public in dealing with us can place implicit faith in the fact that the lowest prices are asked All Goods are marked in plain figures from which there can be no deviation thus placing the inexperienced on equal terms with the experienced in the purchase of goods.

Our country friends would do well to reap the advantage of an early inspection of our Warehouse It is incumbent on us to make room We are crowded and we must move goods off to make way for fresh contracts to arrive by every Steamer during all April

We have advices of a shipment of Goods from Glasgow direct now fully due and daily expected,

The Daily Oregonian.

FRIDAY MORNING, APRIL 5, 1878.

ANOTHER NOMINATION.

COLUMBIA COUNTY, April 3, 1878.

TO THE EDITOR OF THE OREGONIAN:

As the time for nominating our candidates for state officers draws near, and the merits of candidates are being discussed, I beg leave to suggest Dr. L. L. Rowland, of Salem, as a man in every way qualified for the office of governor. While Dr. Rowland is not a narrow partisan, he is a true Republican, and being in no way connected with any "ring" or "clique," would doubtless be an acceptable candidate to all who have the best interests of the party at heart. He has been a resident of Oregon since boyhood and is well known as a man of eminent ability, fine education, and unimpeachable character.

As was shown by the OREGONIAN some months ago, one of the urgent necessities of the times is the election of state officers, who will conduct public affairs with the most rigid economy consistent with efficient administration of the various departments, and particularly a governor who will guard the school fund in the interest of the schools, and prevent its conversion into a "sinking fund" for the benefit of impecunious politicians. From the deep and abiding interest Dr. Rowland has always manifested in the school interests of the state, we may be sure that as governor he could, and would do even more for those interests than he has in his very efficient performance of the arduous duties of his present office.

While he might not be an acceptable candidate to some of those who assume to be party "managers," I can not doubt that the great majority of the Republicans of the state would heartily approve his nomination and labor for his election. Dr. Rowland was the only Republican elected four years ago. Place him now at the head of the ticket and victory is certain. That victory gained, the reforms so much needed in the methods of conducting our state affairs, will be assured.

REPUBLICAN.

FINANCE AND COMMERCE.

Financial.

THURSDAY EVENING, April 4, 1878.

Gold in New York, 101¼.

Legal tenders in Portland—buying 98½; selling, 99½.

Silver in coin 2¼@3½ per cent. discount.

As will be seen by quotations a slight advance has taken place in the price of silver, which has approached ½ cent nearer par with gold and legal tenders. The rate of discount on the latter below gold is now so little that in many cash transactions it is entirely ignored.

Domestic Produce.

The week has been one of uninterrupted good weather and business has received a considerable impetus in some directions. The volume of trade however, in the department under consideration shows rather a decline than an increase, attributable principally to the fact that farmers everywhere are too busy with their spring work to pay much attention to the market. The fact, too, is that the surplus products of the country are nearly exhausted.

The wheat market is still dull and receipts quite light. There are no foreign bound vessels now at hand to load, and except an occasional urgent demand from millers or for seed purposes, the inquiry is slack. The volume of trade in this cereal was but little enhanced by the rise in Liverpool and San Francisco which took place about a week ago, but from which those markets have again declined. Quotations in the local market were put up to $1 80, but for the most part were nominal, as holders then stood out for $1 90@2. A few hundred bushels, however, changed hands at $1 80, and but few of those who have any to sell are willing to accept less to-day, though the quotations current are $1 70@1 75.

Flour is in very full supply, and holders, in some cases, are manifesting more desire to work off stocks, as it is evident that the wheat crop will be abundant and the risk of carrying over a surplus grows less likely to result in a profit. The quotations range from $5 50@6 ꝑ barrel for standard extras, the jobbing price being about $5 75 for ordinary lots.

Oats come forward now very slowly, and dealers are rather more anxious to purchase, though the lessened inquiry for feed purposes is noticed, and prices are maintained at 45 cents per bushel, buyers' rates. The calls for choice lots for seeding have been quite numerous, but generally in small quantities. Mill feed, hay, etc., show no change worthy of note, the market being well supplied and dealers not anxious to engage large lots in advance of orders. The local demand has not increased.

Potatoes dropped slightly about a week ago and have since remained steady at 90c@$1, but at these figures 'immediate' delivery is required, as a decline is feared, and the new crop in California will soon be on the market of San Francisco. The receipts have been much less than last week, although quite large in the aggregate. Onions are not very abundant, and best lots readily command maximum quotations. Dairy products are well supplied, and for all except choice butter and cheese for the local trade prices are dull and lower. Shipments abroad are very light, lots sent to San Francisco recently having resulted in very meager returns to the shipper. Eggs are down to 15@16c, and shippers are generally out of the market at this low figure the Oregon product commanding only 18 cts in the San Francisco market. Apples are in request at full rates, especially choice varieties for shipment, and prices firm. Receipts show a a decided falling off, showing that the surplus is well nigh exhausted.

Hides and wool show but a small volume of transactions and but little to indicate any important change in prices. The wool market for the spring clip has opened in California and the east at rates and under conditions which, though not of a very depressive tendency, nevertheless afford but little encouragement to the hope for high rates. Some weeks will yet elapse before any important movement of this staple will occur here.

Home Produce Market.

WHEAT—But little doing. At the close the market is showing an upward tendency under advices from San Francisco. There, it appears the market is excited somewhat, and quotations have been put up to the point reached early in the week. The feeling here is unsteady.

FLOUR—Market supplied with fair stocks of nearly all grades and prices firm at $5 75 in jobbing lots for standard extras, $5 75 to $6 for smaller lots. Shipments not large as usual.

OATS—There is an active demand for choice both for milling and seed purposes, the very best commanding 47½ cents per bushel; buyers' price for fair merchantable lots 45 cents per bushel.

BARLEY—The receipts, which are quite light, are all taken for local consumption at $1 50@1 60 per cwt. No shipments are being made.

MILL FEED—Supply fair, bran quotable at $22 60 per ton; shorts $30, middlings $33@37 50.

HAY—Receipts continue quite adequate to the demand; prices range from $10@11 per ton for baled timothy and $8 50@9 for loose do.

POTATOES—The local market is quiet to-day spot lots selling freely at 90c@$1 per bushel. An advancing tendency is noted in our advices from San Francisco.

ONIONS—Some advance is noted, and choice lots command $1 50 per 100 lbs.

RIPE APPLES—Prices depend entirely upon quality and condition; best varieties for shipping, assorted and packed, $1 25.

BACON—The demand is dull and stocks more than ample to meet it; quotable 10@11c for sides; 8@8½c for shoulders, and 12@14c for hams.

LARD—The supply is ample and the market steady at 10@12½ cents ꝑ lb.

DAIRY PRODUCTS—Butter, solid, 15@18c ꝑ lb; brine, 16@18c; choice dairy 30@35c; cheese, quotable at 15@16c ꝑ lb. Market quiet, dull.

EGGS—Shippers backward at 15 cents per dozen, though 16 is paid for fresh lots for home consumption.

CHICKENS—Very choice hens, $4 50 per dozen; mixed lots, $3 50@4; demand brisk.

HIDES AND FURS—We quote best selected hides at 12½@13c ꝑ lb; culls, ⅓ off; green, salted, 4@5c; elk, 6@8c ꝑ lb; deer, 20@25c ꝑ lb for dried, and 50@75 each, green; mink skins, 50@$1 each; otter, $1 each; beaver, 75@$1 15 ꝑ lb.

FRESH MEATS—Beef, dressed, 4@5c ꝑ lb; on foot, 2@2½c; dressed hogs, 6@6½c ꝑ lb; mutton sheep $2@2 50 ꝑ head.

DRIED APPLES—Demand slightly better; quotable at 5@5½c ꝑ lb for sun dried.

DRIED PLUMS—With pits, 4½@5c; pitless, 10@11c ꝑ lb.

San Francisco Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, April 4.—Flour—Quiet but firm; extra, $6¼@6¾; best jobbing, $7@7¼.

Wheat—Quiet; choice milling, $2 12½@2 15; shipping, $2@2 05.

Barley—Feed, $1 20@1 22½.

Oats—Jobbing $1 35@1 45.

Corn—Active and firm; large yellow, $1 50@1 65; small, $1 30@1 35.

Hay—Dull; choice wheat, $10; oat and barley $10@14.

Potatoes—Advancing, $2¼@2½.

Shipping Intelligence.

The steamship Idaho from San Francisco left Astoria at 4 o'clock this afternoon, and will arrive some time to-night.

The steamship City of Chester for San Francisco, and the schooner Pato, crossed the bar yesterday.

New York Markets.

NEW YORK, April 4.—Flour less active but steadily declining; wheat dull, ½ lower, closing mark.

DR. PAUL M. BRENAN.
His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Private Diseases,
He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this state can testify.

CAUTION.
Persons coming to Portland, requiring medical treatment of the proper kind who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door, Room No. 7, Corbett's Block, over O'Connor's Store, corner of Front and Washington streets.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Collision and Explosion.

MAUCH CHUNK, Pa., April 5.—This morning an oil train ran into a freight train on the Lehigh Valley Railroad near the station, exploding the engine of the oil train and burning several cars and a small iron bridge on which the cars were standing. Soon afterwards the oil tank exploded, scattering the flames in all directions and burning three men fatally and ten severely. The wind carried the flames to the depot and a wooden bridge, which were also burned.

Lecture on Oregon.

NEW YORK, April 5.—Col. Mercer, editor of the *Oregon Granger*, will address the New York Press Club to-morrow evening in their club rooms and impart information concerning Oregon and Washington that may be new to eastern men.

Strikers' Mob.

PROVIDENCE, April 5.—On account of reduction of wages operatives of the Prague Mills and the help at the Arctic were paid to-day, when the help at the Arctic were paid to day, a crowd of strikers, chiefly boys, started for Natick, where some of the help had gone out and returned to work. The mob broke open the doors of one mill, went in and drove the operatives out, one man being badly hurt. They broke some machinery, cut belts and did other damage. The police from Providence arrived in time to check the assault on the next mill, and the mob started for Quidnick. The police remained on the ground and made some arrests. Probably the mills at Natick, Arctic and Quidneck will not be able to run for a day or two.

Eschewing the Chewers.

SPRINGFIELD, Mass., April 5.—The New England Methodist conference, at Westfield, voted to-day not to admit ministers in future who use tobacco.

The Turf.

LONG BRANCH, April 5.—D. D. Withers today bought the Monmouth Park racing course for $67,000. The first meeting will be the first week in July.

WASHINGTON CITY.

Senatorial Scandals.

NEW YORK, April 5.—The *Herald's* Washington special, on the Pacific Railroad debate, says: Before this debate is closed it is probable some senator will urge an investigation of what is generally regarded as the severe allegations of Edmunds touching bribery and corruption and scandalous lobbying in the United States senate. A majority of the senators will be glad to have an investigation.

A Lost Chance.

The *Tribune's* Washington special thinks that because of the debate on the Polk matter to-day Wood lost his opportunity, and the tariff bill cannot come up before the 25th of April or the 1st of May.

Pinchback Interviews Hayes.

WASHINGTON, April 5.—Ex-Gov. Pinchback of Louisiana had an interview with the president last night and took occasion to give his views concerning the needs of that state. He represents the interview both as pleasant and satisfactory.

Question of Bank Note Engraving, Etc.

WASHINGTON, April 5.—The house committee on banking and currency has decided—seven against three—to report adversely on Representative Potter's bill providing for distribution among bank note companies of the work now done by the bureau of engraving and printing, it being the opinion of the majority that such work should be done by the bureau exclusively.

The Life Saving Service.

The sub-committee of the house committee on commerce reported adversely on several bills proposing a transfer of the life saving service to the navy department. The report recommends a general increase of strength in the service.

A New Way to Elect a President.

The house committee on revision of the laws regulating the counting of the electoral vote for president and vice president, agreed to a provision providing for the election of the president by the direct vote of the people.

Put in a Safe Place.

The senate joint resolution providing a place for deposit of the records of the proceedings of the electoral commission, passed.

Why Gen. Simpson Tarries in Jericho.

Pending action by congress on the bill providing for the abolition of the office of surveyor general in the states and territories, the president declines to make reappointments or any new appointments for those positions. This accounts for the delay of action concerning the Oregon surveyor generalship and other cases, where commission have expired.

A Country Without a Court.

The treasury department has encountered singular embarrassment in the case of the newly appointed collector of customs for Alaska. The law requires the oath of office to be taken before some magistrate authorized to administer the oath within the district to which each collector of customs belongs. The department has the information that there is not any magistrate in Alaska thus authorized, unless the treasury agent at the fur seal islands may be so considered, and Sitka is so distant from these islands that it would be extremely inconvenient, if not practically impossible for the collector to take the oath of office before them. A bill was therefore introduced in the senate to-day providing that until the formal organization of the territory of Alaska the oath of office required from customs officers may be taken before any U. S. circuit or district judge.

The Santillian Claim.

WASHINGTON, April 5.—The house private land claims committee will meet next Monday to hear arguments from the attorney of the San Francisco land association of Philadelphia, in advocacy of the bill for a revival of the Santillian claim. Horace Davis will be present and take notes for an early reply.

Harbors of Refuge.

The committee has inserted provisions in the harbor bill for surveys of Crescent City harbor and Humboldt river, California, and Cape Foulweather roadstead, Oregon, with a view to ascertaining their adaptability as harbors of refuge. The item of $80,000 for improvement of Oakland harbor, is inserted with the following proviso:

But this sum shall not be available until the right of the United States to the bed of the estuary and training walls of this work is secured, free of expense to the government, in a manner satisfactory to the secretary of war.

All other Pacific coast items heretofore mentioned in these dispatches are retained without alteration. The bill will probably be passed by the house under suspension of rules without amendment.

Pinchback's Complaint.

WASHINGTON, April 5.—Pinchback says Louisiana has now the best governor within his recollection and the people are better satisfied than heretofore with public affairs, although, as elsewhere, there are complaints of hard times. The only thing of which Pinch-

is in favor of respecting the electoral controversy, especially with the uncertainty that any decision given by the supreme court would be adverse to the Democrats.

Planning the Campaign against Hayes.

CHICAGO, April 5.—The *Tribune's* Washington special says: Last night's meeting of the Republican congressional and national committees was called to throw the president overboard on the threshold of the next campaign. The talk was that the party could get along better without him; that he had de-
